

December 9th, 2016

Announcement

As a result of the January 1st, 2017 implementation of the provincial Carbon Tax in Alberta Willy's Trucking Service will be adding a surcharge of 0.9% as a separate line item on each invoice also starting January 1st, 2017.

The full impact of the Alberta Carbon Tax is to some degree unknown. Our best information is coming from consultants who have tried to quantify the industry impact. Our promise to our customers is that Willy's Trucking Service will manage our business in a manner that minimizes the impact of the Carbon Tax.

We appreciate each and every customer we have the privilege of serving and hope that this change, although necessary, will allow us to continue to provide industry-leading freight services.

Sincerely,
Willy's Trucking Service
